Digestive Advantage™ Caplets

New Digestive Advantage Caplets are small and easy to swallow. Digestive Advantage Caplets contain the same, unique, patented lactobacillus cultures that are found in Original Digestive Advantage capsules.

Many of our friends that have tried Digestive Advantage have found it to be more effective for the control of the symptoms of lactose intolerance than enzyme based supplements.

They love the fact that they can take a product once a day and eat dairy whenever they like.

Unlike other lactic acid organisms,

More Information

 **View a COST COMPARISON of Digestive Advantage vs. other products on the market today.**

the harsh gastric acid environment does not effect the cultures in Digestive Advantage and it is able to rapidly colonize the intestinal mucosa.

The lactic acid cultures in Digestive Advantage works at the level of the intestinal mucosal surface, exactly where lactose and carbohydrate metabolism occurs.

No other product on the market is like Digestive Advantage.

- Each box contains 32 individually wrapped, easy to swallow caplets.
- No other product contains Ganeden Biotech's patented formulation
- No other probiotic product works as fast for relief of symptoms
- Digestive Advantage has a full, money back guarantee - others don't!
- Digestive Advantage is NOT a Lactobacillus Acidophilus based product.
- Digestive Advantage starts working in 24 hours.

- Digestive Advantage dosing is a simple, once a day caplet, so it's easy to use!
- Digestive Advantage provides continuous protection, 24 hours a day.
- No concern when eating new foods that can contain hidden dairy.
- No need to carry around pills all day just in case you want a dairy meal. Enjoy a more normal dietary lifestyle.
- Dairy products are a major source of calcium. With Digestive Advantage, you and your family can enjoy more dairy products which in turn, may help prevent osteoporosis.
- Digestive Advantage is safe and effective. The lactic acid cultures in Digestive Advantage have been used in food production around the world for years.
- Digestive Advantage is cost effective compared to other lactose intolerance products.
- Please note - free shipping offer only applies to U.S. orders. Please add international shipping option to those orders

outside the United States. We
cannot be responsible for lost or
stolen orders outside the U.S..
